- **If you want to build a ship, don't drum up the men to gather wood, divide the work and give orders. Instead, teach them to yearn for the vast and endless sea.**

  Quand tu veux construire un bateau, ne commence pas par rassembler du bois, couper des planches et distribuer du travail, mais reveille au sein des hommes le desir de la mer grande et large.
  (Note: The quote is attributed to Saint-Exupéry; it only appears in one distinct American translation of "Citadelle"; it is not referenced in the published originals)

- **Pure logic is the ruin of the spirit.**
